

QUOTIENT AND REMAINDER FOR INTEGER POINT

Aim

To find the quotient and remainder of two integer numbers using RAPTOR.

Algorithm

1. Start.
2. Read two integer values a and b.
3. Calculate quotient = a / b .
4. Calculate remainder = $a \bmod b$.
5. Display the quotient.
6. Display the remainder.
7. Stop.

Sample Input

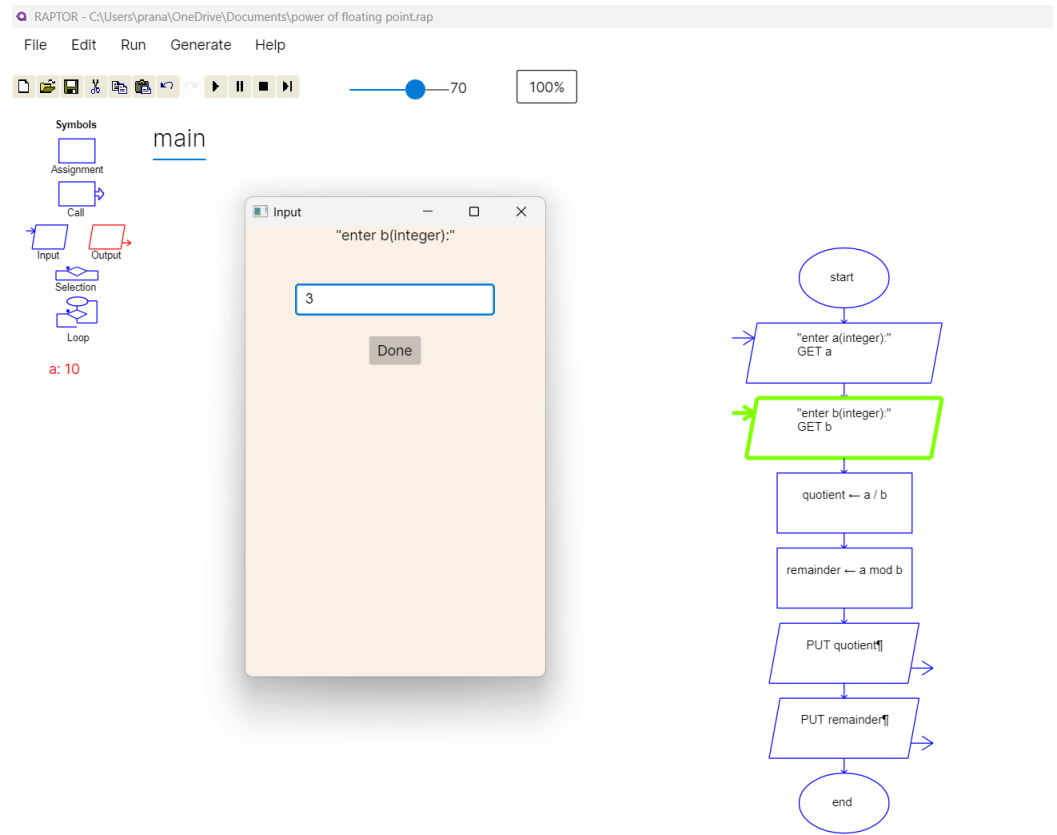

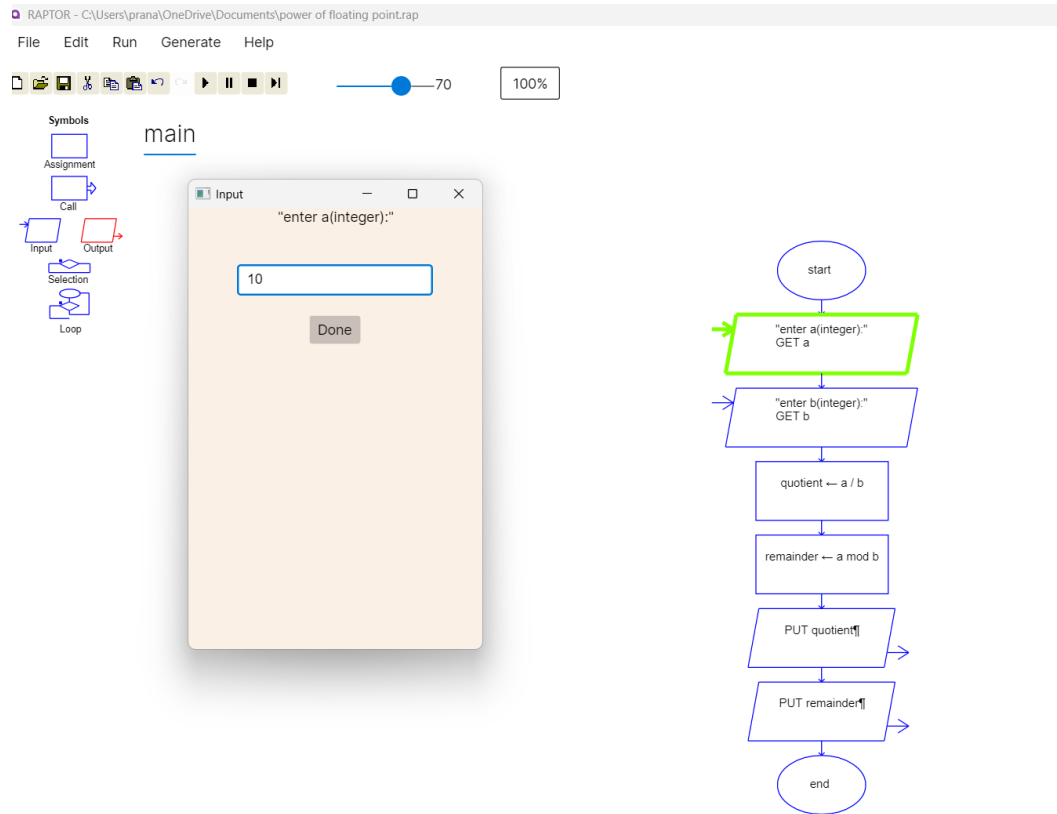

a = 10

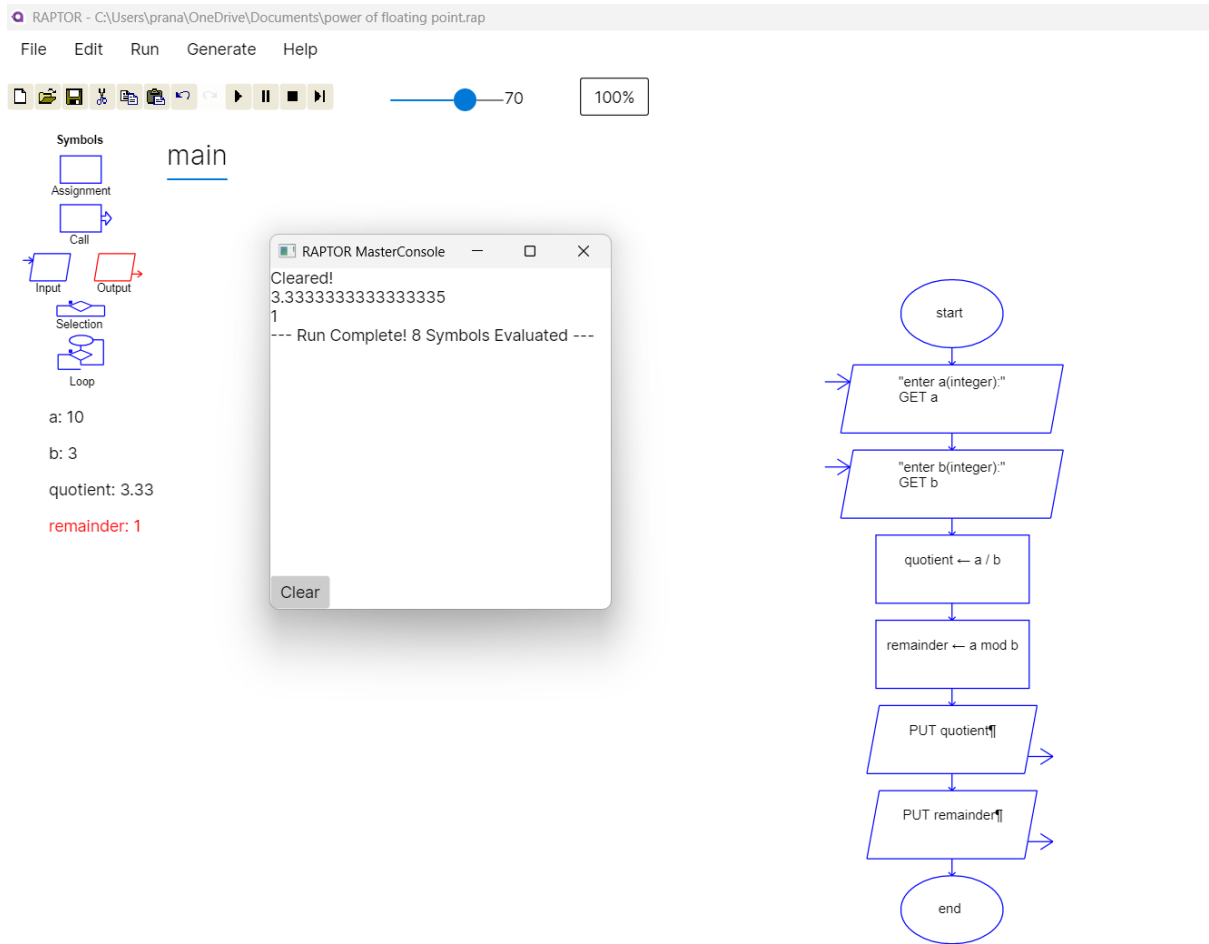

b = 3

Sample Output

Quotient = 3.3333

Remainder = 1

Result

The quotient and remainder of the given integer values were calculated successfully using RAPTOR.
